

## BREAD TRUST YIELDS.

The "Evening World" Battle for Cheaper Prices Bearing Fruit.

Wholesale Bakers' Association Gives Evidence of a Disintegration.

Full Weight Loaves Must Be Furnished at a Minimum Price.

Cheap flour and "The Evening World's" indisputable arguments in favor of a reduction in the price of the eighteen-ounce loaf have proved too much for the Bread Trust. Disruption in the ranks of the Wholesale Bakers' Association is the result. It is now only a matter of coming to a decision as to the time when the reduction shall go into effect.

A majority of members of the Trust have decided that it is useless longer to keep up the fight against the inevitable. The meeting of the Association Tuesday afternoon demonstrated to every member of the Trust that the feeling in favor of a cut was general, and that the two or three bakers who held out to keep up the price had few and weak arguments to support their position.

The disclosure that two of the most prominent members of the combine had agreed to furnish full-weight loaves at a price far below that asked by "The Evening World," taken in conjunction with the array of evidence published by this paper, practically disposes of the question of cheaper bread.

It was learned to-day that for the past week several hundred grocers who have been drawing their entire supply of bread from the Trust concerns, have been cutting down their orders to such an extent that a few weeks more of stubbornness on the part of bakers would mean bankruptcy to most of them.

The people absolutely refuse to buy Trust bread at five cents a loaf, while bakers not in the combine are furnishing at a good article and as much as 11 for four cents a loaf.

Hundreds of housewives have taken the advice of "The Evening World" and are baking their own bread. With flour so cheap, frugal people have learned that a heavy saving can be made in household expenses may be made in this way. However, as soon as the price of the eighteen-ounce loaf is reduced, these housewives will gracefully acknowledge the favor by again procuring their supply from the bakers. A baker who has been profiting by the obstinacy of the Trust for the past two weeks and to-day that he contemplated putting his prices down to a fraction below the three-cent basis if the price of the material showed no inclination to rise above the 52.50 figure, at which the very best patent flour is now quoted.

Shirtmaker's Strike.

There is every probability that a lockout of 5,000 union shirtmakers will take place to-morrow because they are already refusing the reduction of 10 per cent. in their salaries demanded by the Contractors' Association. The men and women employed in Levinson's, Cohen's and Diamond's shops, in Pellam street, went out to-day when their employers demanded a reduction of prices. The shirtmakers' union will meet to-morrow night to take action against a reduction of wages.

## JAIL FOR ALD. PARKS.

Sentenced to Serve Five Months in Monmouth County.

Must Also Pay a Fine of Five Hundred Dollars.

Convicted of Keeping a Gambling House at Asbury Park.

FREEHOLD, N. J., November 22.—Alderman Parks, of New York, was sentenced to five months in the Monmouth County Jail and to pay a fine of \$500 and costs this morning.

The sentence was imposed in the County Court in Freehold, N. J., by Judge Conover this morning.

He was convicted of keeping a gambling-house at Asbury Park last summer, after being forced to close his gaming resort in New York City through the intervention of the police.

The meeting of the Association Tuesday afternoon demonstrated to every member of the Trust that the feeling in favor of a cut was general, and that the two or three bakers who held out to keep up the price had few and weak arguments to support their position.

## THESEA SAVED A LIFE.

Walter L. Smith Cuts His Throat and Springs Into the Ocean.

The Waves Wash Him Ashore and He Is Found Unconscious.

Loss of Situation and Failure to Get Work the Prime Cause.

Walter L. Smith, nineteen years old, living at 123 Park place, Brooklyn, was found lying on the sand back of the Ocean Hotel, Coney Island, at an early hour this morning. His throat was bleeding from a deep gash, and his clothes were wet with the salt water that surged about him with every wave that broke on the shore.

The young man was dressed in bicycle costume and wore a white wool sweater. His cap and wheel were missing.

The discovery was made by Frank Kuntz, a watchman at the Ocean Hotel on Sea Breeze avenue.

Kuntz summoned the police, and the unconscious youth was conveyed to the station-house. There an ambulance was summoned from the Flatbush Hospital. Smith could give no account of himself.

When Ambulance Surgeon Poole arrived at the police station he administered restoratives to Smith and succeeded in reviving him slightly, but he remained into unconsciousness.

Later, at the hospital, it is said, Smith declared that he had cut his throat with a razor and thrown himself into the ocean. He remembers diving into the water, but after that all was a blank, until he recovered consciousness in the police station. The waves must have washed him upon the beach, where Watchman Kuntz found him.

At 123 Park place, Brooklyn, it was said that young Smith left the house yesterday afternoon and had not returned. The house is occupied by Mrs. Patterson. It was stated further that Smith had boarded there some time. He is not a member of the Patterson family and the servants could not tell where his relatives might be found.

## FIRST WEEK'S TREATMENT FREE.

AND NOT ONE PENNY TO PAY FOR A WEEK'S SUPPLY OF MEDICINES, EITHER.

Doctors McCoy and Snow Extend This Offer to the Public for the Next Two Weeks—Everybody, Rich and Poor Alike, Is Welcome to Take Advantage of It, Without Incurring Any Obligation to Continue Treatment After the Free Week.

It may seem improbable, but it is true just the same, that during the next two weeks following the publication of this article all new patients applying in person for treatment at the offices of Doctors McCoy and Snow, 315 Madison Avenue and 833 Broadway, will receive advice, medicine and office treatment absolutely free for a period of one week—not a week at the end of a long-drawn-out course of treatment, but a week beginning with their first visit. Not one penny required for consultation, advice or even the medicine prescribed, which will be equal in quality to that compounded by the best druggists.

WHAT IS THIS DONE FOR? A merchant doesn't hesitate to submit a sample of his goods to a customer, neither should a doctor of ability fear to offer a sample of his work to be a patient's physician. Realizing this, Doctors McCoy and Snow offer their services free to all who apply during this limited period, in order to give the public an opportunity to decide for itself, without cost, whether their claims to skill are correct.

IT IS THE FIRST WEEK FREE. This offer is genuine and does not cover any deception of a catch-penny nature. It is not the first week free, nor the middle week free, but the first week's treatment with medicine, and if you are cured in one week, well and good. You have nothing to pay. You are welcome to come just the same. If after the free week is up you want to stop treatment you are equally welcome to do so. If you desire to continue the treatment after the free week has expired you can do so.
